

# F220

## 57cc Mid-size Tiller

### Adjustable handle

Y-shape handle can be adjusted to your height for maximum comfort and also folds flat for easy storage.

### Powerful 4-stroke engine

The powerful 57cc OHV engine makes this an ideal all-round tiller, making light work of many tasks.

### Large front wheel

Helps with transportation.

### Slasher rotors

Slasher rotors, crop protection discs and transport wheel are all included.

### Wide working width

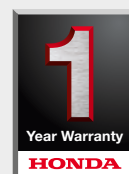

Wide 545mm working width covers larger vegetable plots or borders quickly.

A wide 545mm working width makes the F220 well-equipped to take on larger flowerbeds as well as the vegetable garden. The F220 is a safe, light yet extremely powerful machine, supplied with slasher rotors and crop protection discs as standard. The adjustable Y-shaped handle and transport handle makes this mid-size tiller easy to use and manoeuvre, making it ideal for a range of horticultural tasks.
