

FG110

25cc Mini Tiller

Low Vibration

Low vibration for comfort over long periods of use.

Efficient engine

Easy starting 25cc mini 4-stroke engine with excellent torque, fuel efficiency and incredibly quiet and clean operation.

Easy use, easy storage

Lightweight and compact with folding handlebars, carry handle and transit wheels supplied as standard, for easy transport and storage.

Worm gear transmission

Single speed worm gear provides more torque, for greater efficiency under heavy load.

Hybrid tines

Exclusive Honda hybrid tines dig and cultivate at the same time.

Lawn care kit available

Optional lawn aerator, edger, and de-thatcher also available, or sold as a complete kit.

Narrow tilling width

230mm wide tines enable you to dig between rows of vegetables or around shrubs with ease.

Regularly a 'Best in Test' winner, this compact and efficient multi-purpose mini tiller is a great personal garden tool that's ideal for digging between and around plants. Integrated folding handles and lightweight design make it easy to use, transport and store too.

A range of optional accessories (including lawn aerator, edger and de-thatcher) are also available to maintain the perfect lawn, too.

Domestic Use

Professional Use

*subject to an annual service
