

FG315

135cc Mid-size Tiller

Deadman's handle

For added protection, when the user lets go of the handles the engine stops automatically.

Forward and reverse gearing

Single forward and reverse gears for easy working and manoeuvring.

Powerful 4-stroke engine

The powerful 135cc OHC engine makes this an ideal all-round tiller, making light work of many tasks.

Large front wheel

Helps with transportation.

Adjustable handle

Y-shape handle swings to the side to avoid walking on tilled soil and adjusts to your height for maximum comfort.

Slasher rotors

Slasher rotors and crop protection discs included.

Wide working width

Wide 800mm working width covers larger vegetable plots or borders quickly.

A capable all-round tiller with a powerful 135cc OHC engine. This updated model now features a wider 800mm working width to cover larger areas quickly and efficiently, with both forward and reverse gears for easier working.

Domestic Use

Professional Use
